

This certification is for all Python users who wish to certify their skills regardless of their proficiency level.

Expected Proficiency Level by Career:

- **Beginner/Basic:** the candidate is not able to use the coding language in a professional environment.
- **Productive:** business analyst, biostatistician
- **Advanced:** developer, data scientist
- **Expert:** Python trainer, technical expert, team leader

Skill Domains:

Language and Syntax

- ✎ Context and use cases of Python
- ✎ Syntax and semantics
- ✎ Input / output management

Data Structures and Objects

- ✎ Import and use
- ✎ Standard library

Modules and Packages

- ✎ Classical structures
- ✎ Functions and procedures
- ✎ Object-oriented programming

Code Optimization

- ✎ Code performance
- ✎ Algorithms

Expertise Report :

Comprehensive and easy-to-interpret skills reports are generated at the end of each assessment test. They help you:

- **Identify** candidates' skills at a glance.
- **Adapt** your programs to their training needs.
- **Measure** the effectiveness of your programs.
- **Obtain** group reports or progress reports.

✎ Assessment

- ✓ 25 questions
- ⌚ 60 minutes

✎ Certification

- ✓ 35 questions
- ⌚ 90 minutes

✎ In-app questions¹

✎ Adaptive testing

Languages and Versions :

English and French

3.9

Why certify with Tosa?

It is essential to make a difference in the job market. **Tosa certifications enable candidates to measure and attest to their digital skills.** Tosa certifications deliver a score out of 1,000 for candidates to put on their resume or on their professional networks.

According to our certified individuals, the Tosa certification:

- 🔧 Gives them more confidence in their skills **(86%)***
- 🔧 Adds value on their CV **(76%)***

Understanding the Tosa score

The Tosa certification is based on a single score scale, available in five levels:

Level	Scores	Description
Expert	876 - 1000	Candidate has extensive knowledge of the subject evaluated. Candidate's productivity in its use is optimal.
Advanced	726 - 875	Candidate has very good knowledge and control of the subject matter being evaluated. Candidate's productivity is excellent.
Productive	551 - 725	Candidate possesses the skills needed to operate effectively in a professional environment.
Basic	351 - 550	Candidate has sufficient knowledge to perform simple tasks.
Beginner	1 - 350	Candidate's knowledge of the evaluated subject is limited.

What is an in-app question?

Beyond traditional MCQs, our tests offer the candidate practical exercises (or in-app questions) directly in the development environment or software.

- 🔧 **Coding language in-app question:** questions of this type should be solved by creating or modifying a program in the integrated development environment, in the appropriate programming language

What is adaptive testing?

Our technology adapts the test's difficulty to the candidate's answers. The more difficult the questions asked, the higher the candidate's proficiency level.
